Re: Tickfaw State Park – Shower Repair
File Number: 1000098482

Mr. La Grange,

At your request an inspection of the construction of the temporary shower facilities was conducted 8-11-16. The attached letters are confirmation that installation of the plumbing, electrical and mechanical facilities for the shower structures were performed by licensed individuals.

A visual inspection of these systems affirms that they do indeed appear to meet required codes.

In addition, ADA standards and accessibility features appear to meet code requirements. This inspection was limited to construction techniques of the shower structure and does not address final installation parameters or possible further requirements of the Department of Culture, Recreation & Tourism or other State Agencies.

Should you have any questions or if further information is required, please feel free to contact me.

Sincerely,

Chuck Dammon
