Subject: Drawings

Hi Tim,

I have attached the documents we talked about.

I need 2 sets of drawings

*Take info about human habitation out.

*Change info to name/logo(in attachments) Apex Builders and Associates 504-858-6544

*Change picture to picture provided in attachments

1)A-Frame Drawings (need these ASAP) see attached plans for Cabin and Utility
8x12-40x60. I want to use the Graceland plans as a reference and add these other sizes.

Subject: Lofted barn

Scratch that- on the lofted barn drawings we only need to go up to 20' wide. Graceland drawings go up to 14' wide, but it will still be the same construction.

Good afternoon Mr. Rachel,

I am working on the Apex building plans. I wanted to confirm a few

things regarding what information you wanted in the build plans.

Building sizes: On the cover page, would like us to list the original sizes as well as additional sizes going to 30' wide? The original building widths increased by increments of 2', would we keep the same trend up to 30' wide? For the length of the buildings, are we keeping the original lengths of 20', 24', 28', 32', 36', 40', and adding 50' length for the 30' wide building only?

Roof design: You mentioned a lofted barn style roof, this roof is only being applied to buildings 16' wide to 20' wide? So that all building sizes (8' wide to 30' wide) will have the A-frame style roof, and buildings 20' wide and under will receive the lofted barn roof. Also we do not have any plans or information on how the lofted barn roof is constructed, could you provide us with that information please?

I believe that is all the questions I have at the moment. If you come up with anything else, let me know.

Thank you,

- Tim
