**Subject:** Invoice for 6th Baptist church  
**Date:** Thursday, January 18, 2024 7:01:14 PM

---

The first invoice I sent you was for preliminary information and locating a laminated frame company and site investigation hours.

This invoice covers the engineering hours for checking the pile loads ,floor truss investigations,checking floor loads and reducing the total number of piles and drawing review.

Checking pile loads	6 hr
Floor truss investigations	4 hr
Reducing number of piles required	8 hr
Review drawings	2 hr
total	20 hr @ \$80 hr \$1600.00

I have the sketches and calculation if you want to copy them

Curtis

P.S, I still think a design review with the architect is needed. I will not charge you for my hours for review with the architect.
