

Table 3-22c
Continuous Beams
Moments and Shear Coefficients -
Equal Spans, Equally Loaded

Moment	Uniform Load	Shear
in terms of wl^2 	Uniform Load 	in terms of wl
Moment in terms of Pl 	Concentrated Loads at center 	Shear in terms of P
Moment in terms of Pl 	Concentrated Loads at third points 	Shear in terms of P
Moment in terms of Pl 	Concentrated Loads at quarter points 	Shear in terms of P
