600 gal per day chlorinated treatment plant

What disinfection method does the facility utilize?

chlorinated treatment

2. If this treatment plant receives any wastewater other than sanitary, list the source(s) and amounts.

N/A

3. Are any indirect discharges introduced into the treatment facility (septic hauled wastes, port-o-let wastes, etc.)? **Please note that acceptance of hauled sewage sludge may prohibit coverage under a general sanitary permit.**

Yes No

If yes, provide the following for each indirect discharger:

Company Name	Address	Type of Waste	Average Daily Flow in GPD	Current LDEQ Hauler's License Number

SECTION III - DISCHARGE INFORMATION

A. Discharges requiring approval from the US Fish and Wildlife Service:

Discharges to certain sensitive waters deemed important for the conservation of threatened and endangered species require approval from the US Fish and Wildlife Service prior to eligibility for automatic coverage under the general permit. You must consult the attached GUIDANCE DOCUMENT FOR DETERMINING IF YOUR DISCHARGE(S) REQUIRE PRIOR APPROVAL FROM THE FISH AND WILDLIFE SERVICE

After consultation with the attached guidance document, please check the appropriate statement:

I have determined that the discharge(s) will not enter sensitive waters and that I do not need to obtain approval from the US Fish and Wildlife Service prior to submittal for coverage under this general permit.

I have determined that the discharge(s) will enter sensitive waters. I have obtained the necessary approval from the US Fish and Wildlife Service and a copy of that approval is attached.

B. Discharges Requiring Approval from the Louisiana State Historic Preservation Officer:

If this NOI is being completed for a facility that has not yet been cleared or excavated, you should contact the *Section 106 Review Coordinator in the Office of Cultural Development, Archaeology Division (P. O. Box 44247, Baton Rouge, LA 70804 or telephone (225) 342-8170)* to determine if construction activities or the proposed discharges will adversely affect properties listed or eligible for listing in the National Register of Historic Places.

This is an existing facility and no construction activities related to this NOI are proposed.

This is a proposed facility and construction activities are not yet complete. I have not obtained approval from the State Historic Preservation Officer for the proposed construction activities. Please refer to the permit for instructions related to additional permitting requirements for storm water discharges related to construction activities.

This is a proposed facility and construction activities are not yet complete but I have obtained approval from the State Historic Preservation Officer for the proposed construction activities. (Submit a copy of the approval letter with your NOI.) Please refer to the permit for instructions related to additional permitting requirements for storm water discharges related to construction activities.

C. Complete this section for each discharge outfall. Outfalls are discharge points. An external outfall is a discrete discharge point beyond which the waste stream receives no further mixing with other waste streams prior to discharging into a receiving waterbody. An internal outfall is an outfall for a waste stream that combines with other waste stream(s) before discharging into an "external" outfall. Make additional copies for each outfall.

1. Outfall Identification. Provide a description of all the wastewater types to the effluent. (ex: Outfall 001 – sanitary wastewater – 5,000 gpd)

The average flow reported below relates solely to discharge flow, not treatment system size requirements. The Louisiana Department of Health and Hospitals uses additional criteria including, but not limited to, biological loading to determine design capacity requirements which may differ from the discharge flow.

Outfall No.	Wastewater Type	Average Flow (gpd)
1	typical household wastewater	600

SECTION III - DISCHARGE INFORMATION (Cont.)

2. Outfall Location. Provide a description of the physical location for each outfall.

Front ditch

3. Latitude/Longitude of Discharge Point:

Latitude-30 deg. 15 min. 24.96sec. Longitude-89 deg. 44 min. 28.06sec.

Method of Coordinate Determination: Google Earth

(Quad Map, Previous Permit, website, GPS)

4. If a new discharge, when do you expect to begin discharging? 6-5-22

5. Indicate how the wastewater reaches state waters (named water bodies). This will usually be either *directly*, by *open ditch* (if it is a highway ditch, indicate the highway), or by *pipe*. **Please specifically name all of the minor water bodies that your wastewater will travel through on the way to a major water body.** This information can be obtained from U.S.G.S. Quadrangle Maps. Include river mile of discharge point if available.

By 4" effluent pipe to front parish ditch (effluent pipe, ditch, etc.);

thence into W14 canal (parish drainage ditch, canal, etc.);

thence into _____ (named bayou, creek, stream, etc.);

thence into Lake Pontchartrain (river, lake, etc.).

If this section is left blank, or specifically name waterbody and/or discharge point coordinates are not included, this application will not be accepted as complete.

6. If the discharge is intermittent or seasonal, please complete the following table.

Frequency of Flow (average)			Flow Rate (mgd)	
Number of Months per Year	Number of Days per Week	Number of Hours per Day	Flow Rate (mgd)	
			Long Term Avg.	Daily Maximum
12	7	full time	600 gal max	600

SECTION IV – COMPLIANCE HISTORY

- A. Report the history of all violations and enforcement actions for this facility and all other facilities owned or operated by this applicant, a summary of all permit excursions including effluent violations reported on the facility's Discharge Monitoring Reports (DMRs) and bypasses for the last three years. Using a brief summary, report on the current status of all administrative orders, compliance orders, notices of violation, cease and desist orders, and any other enforcement actions either already resolved within the past 3 years or currently pending. The state administrative authority may choose, at its discretion, to require a more in-depth report of violations and compliance actions for the applicant covering any law, permit, or order concerning pollution at this or any other facility owned or operated by the applicant. **Please attach the report to this application.**

SECTION V – LAC 33:I.1701 REQUIREMENTS

- A. Does the company or owner have federal or state environmental permits identical to, or of a similar nature to, the permit for which you are applying in other states? (This requirement applies to all individuals, partnerships, corporations, or other entities who own a controlling interest of 50% or more in your company, or who participate in the environmental management of the facility for an entity applying for the permit or an ownership interest in the permit.)
- Permits in Louisiana. List Permit Numbers: _____
- Permits in other states (list states): _____
- No other environmental permits.
- B. Do you owe any outstanding fees or final penalties to the Department? Yes No
- If yes, please explain. _____
- C. Is your company a corporation or limited liability company? Yes No
- If yes, is the corporation or LLC registered with the Secretary of State? Yes No
- If yes, attach a copy of your company's Certificate of Registration and/or Certificate of Good Standing from the Secretary of State.**

SECTION VI – MAPS/DIAGRAMS

- A. **Site Diagram.** Attach to this NOI a complete site diagram of your facility showing the boundaries of your facility, the location of all buildings and/or storage areas, the location of treatment units (such as settling basins, oxidation ponds, sewage treatment plants), and demonstrate how the wastewater flows through your facility into each **clearly labeled discharge point** (including all treatment points). Please indicate the location of the facility and the front gate or entrance to the facility on the site diagram. The diagram does not need to be drawn to scale.
- B. **Topographic Map.** Attach to this NOI a map or a copy of a section of the map which has been **highlighted to show the path of your wastewater from your facility to the first named water body**. Include on the map the area extending at least one mile beyond your property boundaries. Indicate the outline of the facility, the location of each of its existing and proposed discharge structures.

A U.S.G.S. 1:24,000 scale map (7.5' Quadrangle) would be appropriate for this item. Appropriate maps can be obtained from local government agencies such as DOTD or the Office of Public Works. Maps can also be obtained online at <http://map.deq.state.la.us/>. Private map companies can also supply you with these maps. If you cannot locate a map through these sources you can contact the Louisiana Department of Transportation and Development at:

1201 Capitol Access Road
Baton Rouge, LA 70802
(225) 379-1107
maps@dotd.louisiana.gov

IF A SITE DIAGRAM AND A TOPOGRAPHIC MAP ARE NOT INCLUDED THIS APPLICATION WILL NOT BE ACCEPTED AS COMPLETE

SECTION VII – SITE HISTORY

A. If this is an existing system, date operations began at this site:

N/A

B. Is the current operator the original operator?

Yes

No

If **no**, give a reverse chronological list of previous operators. Include the company name and telephone number (if available), and the dates through which the company operated this facility.

Company	Dates of Operation		Telephone Number
	From	To	

According to the Louisiana Water Quality Regulations, LAC 33:IX.2503, the following requirements shall apply to the signatory page in this application:

Chapter 25. Permit Application and Special LPDES Program Requirements

2503. Signatories to permit applications and reports

- A. All permit applications shall be signed as follows:
1. For a corporation - by a responsible corporate officer. For the purpose of this Section responsible corporate officer means:
 - (a) A president, secretary, treasurer, or vice-president of the corporation in charge of a principal business function, or any other person who performs similar policy- or decision-making functions for the corporation, or
 - (b) The manager of one or more manufacturing, production, or operating facilities provided: the manager is authorized to make management decisions that govern the operation of the regulated facility, including having the explicit or implicit duty of making major capital investment recommendations and initiating and directing other comprehensive measures to ensure long term environmental compliance with environmental laws and regulations; the manager can ensure that the necessary systems are established or actions taken together complete and accurate information for permit application requirements; and the authority to sign documents has been assigned or delegated to the manager in accordance with corporation procedures.
 2. For a partnership or sole proprietorship - by a general partner or the proprietor, respectively; or
 3. For a municipality, state, federal or other public agency – by either a principal executive officer or ranking elected official. For the purposes of this section a principal executive officer of a federal agency includes:
 - (a) The chief executive officer of the agency, or
 - (b) A senior executive officer having responsibility for the overall operations of a principal geographic unit of the agency (e.g., Regional Administrators of EPA).
- B. All reports required by permits and other information requested by the state administrative authority shall be signed by a person described in Permit **Standard Conditions, Section D.10.a.**, or by a duly authorized representative of that person. A person is a duly authorized representative only if:
1. The authorization is made in writing by a person described in Permit **Standard Conditions, Section D.10.a.**
 2. The authorization specifies either an individual or a position having responsibility for the overall operation of the regulated facility or activity such as the position of plant manager, operator of a well or well field, superintendent, position of equivalent responsibility, or an individual or position having overall responsibility for environmental

matters for the company, (a duly authorized representative may thus be either a named individual or any individual occupying a named position); and

3. The written authorization is submitted to the state administrative authority.
- C. Changes to authorization. If an authorization under Permit **Standard Conditions, Section D.10.b** is no longer accurate because a different individual or position has responsibility for the overall operation of the facility, a new authorization satisfying the requirements of **Section D.10.b** must be submitted to the state administrative authority prior to or together with any reports, information, or applications to be signed by an authorized representative.
- D. Any person signing any document under Permit **Standard Conditions, Section D.10.a. or b** shall make the following certification:

"I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information including the possibility of fine and imprisonment for knowing violations."

SIGNATORY AND AUTHORIZATION

Pursuant to the Water Quality Regulations (specifically LAC 33:IX.2503) promulgated September 1995, the state NOI must be signed by a responsible individual as described in LAC 33:IX.2503 and that person shall make the following certification:

"I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information including the possibility of fine and imprisonment for knowing violations."
