Re: Wax Museum Condos – Water Fall Engineering

Mr. Enslin,

It was a pleasure to talk with you about your plans to construction a waterfall at the subject location. Dammon Engineering, Inc. is pleased to propose our Engineering services to provide you with plans. The plans provided show the water fall to be located inside the lobby of the condos. .

We propose a fee of \$3,825.00 to design the pumping system for the waterfall.

These designs do not include structural support design for the water fall nor do they include any design for the water fall itself.

We look forward to working with you on this project. Please indicate your acceptance of the above fee by signing below. If you have any questions, or require any further information, please feel free to call.

By signing below you acknowledge that you are duly authorized to enter into and execute contracts/agreements on behalf of “Broadmoor L.L.C. ”

Sincerely,

If you have any questions please contact me.

Thank You,

David Dammon
President

John E. Enslin
