Hwy 23  
Belle Chasse, Louisiana

Dear Sir or Madam:

Thank you for contacting us regarding the new metal storage building at the subject location. Dammon Engineering, Inc. proposes to provide our Engineering services to design the foundation, and electrical documents for the 2,400 square foot storage building.

We propose a total fee of \$2.50/sf, or \$6,000.00 (Six Thousand Dollars and Zero Cents) for this work, including five sets of plans provided to you following Fire Marshal approval. This fee includes the Fire Marshal application fee, but does not include cost of soils analysis (if required) or other government agency fees. Soils analysis generally cost \$3,500.00 - \$4,000.00. Our fee also does not include the cost of traffic, or other engineering studies, which may be required by the parish. If selected, we propose to bill \$3,000.00 when the design reaches 50% completion, with the balance due following the Fire Marshal's review and response.

Dammon Engineering carries \$1,000,000 Professional/General Liability Insurance, Auto Insurance and Workmen's Compensation Insurance.

We look forward to working with you on this project. Please indicate your acceptance of the above by signing below. If you have any questions, or require any further information, please feel free to call.

Sincerely,

David Dammon,  
Project Manager
