RE: Restaurant Build-Out
1122 Old Spanish Tr.
Slidell, LA 70458

Dear Mr. McNeil,

It was a pleasure to discuss your plans to renovate the existing 500 s.f. space at the subject property. Dammon Engineering, Inc. proposes to offer our Architect and Engineering services to complete the design of this 500 s.f. renovation

Our proposed fee for the complete design package is \$5,500.00 (Five Thousand Five Hundred Dollars).

Our fee includes the Louisiana State Fire Marshal Review Fee and the IBC review fee. We will provide you with five sets of plans following the Fire Marshal's review and response, two of these sets will include 2 stamped sets of drawings for permitting.

Our fee does not include the cost of permitting, any county or other government required studies or tests, nor the cost of traffic, or other engineering studies, which may be required. Our fee does not include sprinkler or alarm system design which may be required. Our fee also does not include construction site visits; however it can be arranged or billed @ our standard hourly rate.

If selected, we ask for a deposit of \$2,000.00. We propose to then bill the balance due when you receive the stamped sets for permitting.

We look forward to working with you on this project. Please indicate your acceptance of the above by signing below. If you have any questions, or require any further information, please feel free to call.

Sincerely,

David Dammon, VP
Dammon Engineering, Inc.
