Re: Wax Museum Condos – Pool Engineering for Permit

Mr. Enslin,

It was a pleasure to talk with you about your plans to construction a pool at the subject location. Dammon Engineering, Inc. is pleased to propose our Engineering services to provide you with plans for permitting with the Louisiana Department of Health. The plans provided show Pool Area 306 has a commercial pool with dimensions of 12' x 18' and Patio Area PHA02 has a residential pool with dimensions of 6'-6" x 23'-10". The plans provided also show that the pool equipment will be housed on the 1st floor parking area.

We propose a fee of \$7,650.00 to design these two pool systems in accordance with the Louisiana Administrative Code Title 51 Part XXIV for permitting with the Louisiana Department of Health.

These designs do not include structural support design for the pools nor do they include any design for the four hot tubs shown on the plans.

We look forward to working with you on this project. Please indicate your acceptance of the above fee by signing below. If you have any questions, or require any further information, please feel free to call.

By signing below you acknowledge that you are duly authorized to enter into and execute contracts/agreements on behalf of "Broadmoor L.L.C. "

Sincerely,

If you have any questions please contact me.

Thank You,

David Dammon
President

John E. Enslin
